

BiztechCS SEO Sprint Plan

15-Day Offensive Sprint — Automated by SEO Automation Engine

Sprint: 2026-04-17 → 2026-05-01 | Sprint ID: biztechcs_sprint_2026-04-17

SPRINT SUMMARY

Top Opportunity: Drive impressions and ranking jumps for "Odoo POS in India" and "Odoo 17 manufacturing module".
Priority Fix: Compress and properly size hero image on /odoo-manufacturing; defer non-critical JS and optimize server TTFB for this page.

ATTACK VECTORS

Vector #1	Content	Focus Area: Odoo POS in India and Odoo 17 manufacturing module Competitor: cybrosys.com is attacking with new high-performing content on manufacturing and POS, gaining positions on key keywords. Day 15 Outcome: We close the urgent content gap, reduce cybrosys.com's uncontested lead, and start gaining impressions for manufacturing and POS keywords.
Vector #2	Content	Focus Area: Odoo CRM Customization Competitor: We are within 3-5 positions of overtaking cybrosys.com for 'odoo crm customization': a winnable on-page cluster. Day 15 Outcome: BiztechCS takes page 1 for 'odoo crm customization', potentially jumping ahead of a top competitor.
Vector #3	Technical	Focus Area: Technical recovery for /odoo-manufacturing (priority 1 locked) Competitor: Defend against all competitors as /odoo-manufacturing lost 34% impressions and shows technical risk (LCP at 2.8s). Day 15 Outcome: Restore lost impressions (>20%), recover lost ground on manufacturing keywords, and improve CWV scores.

CONTENT PLAN

Priority	Title	Primary Keyword	Word Count	Author	Vector
1	Odoo Implementation Partner India: Why BiztechCS Delivers Better Value in 2026	odoo implementation partner india	2200	Uttam	1
2	Odoo CRM Customization in 2026: A Step-by-Step Approach for Manufacturers	odoo crm customization	1800	Nandeep	2
1	Top 7 New Features in Odoo 17 Manufacturing Module for Indian Enterprises	odoo manufacturing module	1800	Uttam	1

TECHNICAL FIXES

Priority	Page/Metric	Issue	Fix	Impact
1	/odoo-manufacturing (LCP)	LCP at 2.8s, unoptimized images, render-blocking JS/CSS	Compress & size hero image; defer non-critical JS; optimize server TTFB	Expected 20% increase in CWV passing rate
1	/odoo-manufacturing	Speed/LCP: unoptimized images, render-blocking	Serve next-gen images, lazy load, audit blocking CSS/JS	Improves largest content paint
—	Internal linking	Insufficient inbound links to /odoo-manufacturing	Add contextual links from /odoo-crm-module and top pages	Redistributes link equity for faster impression recovery
